

Are there any web integrations or APIs available?

Last Modified on 18/02/2026 3:41 am EST

Currently, there are no APIs or plugins available that use our applications/technology

However, if you have an idea for something that would be really valuable to your research, we would love to hear from you.

For industry partners and vendors, certain custom **data integrations** are possible. If you would like to inquire about a possible integration at your institution, please contact us.
